NATIONAL ATHLETICS ACADEMY INC.

— CANADA —

BUSINESS PLAN

Multi-Sport Training · Competition · Strength & Conditioning · Mind Sports

Regina, Saskatchewan, Canada

Version 1.0 | August 2026

Prepared by: Kiran Nair Raveendran, Founder & Director of Operations

CONFIDENTIAL — NOT FOR DISTRIBUTION

How to Use This Plan

This document is a working business plan and operating blueprint for National Athletics Academy Inc. ("NAA" or "the Academy"). It is written to be used in four ways:

- As an internal roadmap for launch, staffing, programming and season planning.
- As a financing document for a bank, credit union, or Futurpreneur / business development lender.
- As a partnership and sponsorship document for schools, facilities, corporate sponsors and grant funders.
- As the source material for the website, registration platform and marketing content.

> **Assumptions and placeholders**
> Financial figures, participant counts and facility references are planning estimates based on the Regina market and comparable Canadian multi-sport academies. They are not quotes. Replace every figure marked with square brackets, and confirm all legal, tax, insurance and combat-sport regulatory items with a Saskatchewan lawyer, accountant and insurance broker before relying on them. Nothing in this document is legal, tax or financial advice.

1. Executive Summary

1.1 The Concept

National Athletics Academy Inc. is a Regina-based multi-sport training and competition organization that develops athletes across a broad range of Canadian sports under one brand, one coaching philosophy, and one registration system.

Most youth sport in Saskatchewan is delivered by single-sport clubs that operate in isolation: a soccer club for soccer, a basketball club for basketball, a martial arts studio for martial arts. A family with two children in three activities deals with three organizations, three registration portals, three fee schedules and three calendars. NAA consolidates that experience.

The Academy delivers five integrated program pillars:

- **Multi-Sport Training —** structured seasonal programs in soccer, basketball, volleyball, badminton, athletics (track & field), cricket, table tennis and additional sports added by phase.
- **Strength, Conditioning & Combat Sports —** age-appropriate physical literacy and strength training for children, youth-athlete performance training, adult fitness, and mixed martial arts / striking / grappling skills programs.
- **Mind Sports —** a full chess academy running beginner through competitive streams, plus tournament play.
- **Events, Tournaments & Sports Days —** NAA-hosted tournaments, invitational events, school and corporate sports days, and community festivals.
- **Camps, Clinics & School Partnerships —** summer and school-break day camps, PD-day camps, and in-school delivery partnerships.

1.2 The Opportunity

Regina and the surrounding region have a young, growing and increasingly diverse population, strong municipal and school sport infrastructure, and one of the most developed provincial sport funding systems in Canada through Sask Sport and Saskatchewan Lotteries. What the market lacks is an integrated, professionally administered, multi-sport provider that:

- serves the entire family across multiple sports and all age groups from one account;
- offers sports that are under-served locally but in high demand among newer Canadian communities — cricket, badminton, table tennis;
- treats strength, conditioning and physical literacy as a core service rather than an afterthought;
- delivers mind sport (chess) with the same structure and seriousness as physical sport; and
- runs its own event and tournament calendar rather than depending entirely on external leagues.

1.3 Business Model

NAA earns revenue from eight streams, which materially reduces single-season and single-sport risk:

#	Revenue stream	Model	Year 1 share
1	Seasonal program registrations	Per-block fee (8–10 weeks)	34%
2	Monthly memberships (S&C, MMA)	Recurring monthly	21%
3	Camps and clinics	Per week / per day	13%
4	Tournaments and events	Team entry + gate + vendors	7%
5	Sponsorship and grants	Annual agreements	7%
6	Private and semi-private coaching	Hourly	5%
7	Sports days, schools, corporate, parties	Per booking	4%
8	Chess academy	Per block + tournaments	4%
9	Apparel and merchandise	Retail margin	5%

1.4 Financial Snapshot

Figures below are planning targets for a phased, facility-light launch using rented school, community and municipal spaces before committing to a dedicated facility.

Measure	Year 1	Year 2	Year 3
Total revenue	$265,050	$430,000	$669,000
Total operating expenses	$236,500	$380,000	$583,000
Net operating surplus (reinvested)	$28,550	$50,000	$86,000
Operating margin	10.8%	11.6%	12.9%
Unique participants served	540	900	1,400
Program registrations (all pillars)	780	1,350	2,100
Active coaching staff (contract)	12	20	32
Events hosted	6	12	20

Estimated startup capital requirement is $69,000 (lean launch, Pillars 1–3 only) to $150,000 (full launch with complete strength, conditioning and combat sport build-out). A realistic phased launch sits at approximately $95,000–$110,000. A detailed breakdown appears in §8.1.

1.5 What Makes This Work

- **Founder capability.** The founder has direct, current operating experience building a registered youth sport organization in Regina from incorporation through provincial sanctioning, bylaws, registration systems, coach contracting, accounting setup, PST registration, facility booking and paid marketing. That is the exact operating stack NAA requires, already proven locally.
- **Asset-light launch.** NAA rents space by the hour in Phase 1. Fixed costs stay low, break-even is reached at roughly $17,600 per month in revenue, and the business proves demand before signing a lease.

- **Cross-selling.** A family that registers for one program is marketed to for four others. Lifetime value per household is the core economic driver, not per-program margin.
- **Counter-seasonal balance.** Chess, strength and conditioning, and martial arts run year-round and smooth the revenue curve when outdoor and seasonal sport demand falls.
- **Under-served demand.** Cricket, badminton and table tennis have strong, organized and growing participant bases in Regina with comparatively few structured youth development pathways.

1.6 The Ask / Next Steps

To move from plan to operation, NAA requires:

1. Adoption of bylaws, seating of the first board, and completion of the compliance checklist (§2.2–§2.4).
2. Startup capital of $55,000–$98,000 through founder contribution, a small business loan or line of credit, and grant funding.
3. Facility access agreements with at least two school divisions and one municipal or private facility.
4. Recruitment of a founding coaching group of 8–12 certified contractors.
5. Launch of the registration platform and website ahead of the first registration window.

2. Company Overview

2.1 Legal Structure

National Athletics Academy Inc. is incorporated as a non-profit corporation under The Non-profit Corporations Act, 1995 (Saskatchewan), with its registered office in Regina. This is a settled decision and it shapes how every other part of this plan operates: how surplus is used, who controls the organization, which funding is available, and how sponsors and partners engage.

Attribute	Position for NAA Inc.
Statute	The Non-profit Corporations Act, 1995 (Saskatchewan); administered by Information Services Corporation (ISC)
Share capital	None. NAA has members, not shareholders. No person owns the corporation.
Control	Members elect the board of directors; the board governs and appoints officers.
Surplus	Retained and applied to NAA's stated purposes. No part of the income may be paid to or made available for the personal benefit of any member, director or officer.
Reasonable compensation	Permitted. Staff, contract coaches and officers may be paid fair market value for services actually rendered — this is not a distribution of income.
Income tax	Generally exempt as a non-profit organization under paragraph 149(1)(l) of the Income Tax Act, provided no income is made available for members' personal benefit. An NPO Information Return (T1044) may be required — confirm thresholds with an accountant.
Charitable status	NAA is NOT automatically a registered charity. Charitable registration is a separate CRA application. Until granted, NAA cannot issue official donation receipts.
GST/HST	Public service body thresholds differ from ordinary business. Confirm the applicable small supplier threshold and any rebate entitlement with an accountant.
Grant eligibility	Strong. Non-profit status is the entry requirement for Sask Lotteries / Sask Sport streams, most municipal community grants and most foundation funding.
Ongoing filings	Annual return to ISC, annual meeting of members, maintained records office, current director and member registers.

2.2 Membership Structure

NAA's Articles adopt the two-class pre-defined membership structure:

Class	Attend member meetings	Vote at member meetings	Eligible to be elected director
Class A	Yes	Yes	Yes
Class B	Yes	No	Yes

The Articles establish that these two classes exist and what each may do. They do not establish who belongs to which class, what a membership costs, how it is granted or how it ends. Those are bylaw and policy

decisions, and they need to be made deliberately — because the allocation of Class A membership determines who ultimately controls NAA.

Recommended class allocation

Category	Suggested class	Rationale
Founding members / directors	Class A	Continuity of governance through the establishment phase
Active volunteers and committee members	Class A	Sustained contribution warrants a governance voice
Coaches and instructors (contract)	Class B	Avoids a conflict where paid service providers vote on their own remuneration
Parents / guardians of registered participants	Class B, with a defined path to Class A	Broad participation without exposing the organization to a single-season membership surge changing control
Adult registered participants	Class B, with a defined path to Class A	Same rationale
Life / honorary members	Class A or B by board resolution	Recognition of significant contribution
Corporate and community partners	Class B	Association and attendance without governance control

> **Governance point worth deciding early**
>
> Under this structure a Class B member may be elected as a director but cannot vote in the election that puts them there. That is workable — a director's vote at board meetings is separate from a member's vote at member meetings — but the bylaws must state it plainly, and the board should consider capping the proportion of directors drawn from Class B so that accountability to the voting membership is preserved. Equally important: define how a Class B member becomes Class A (for example, on application plus one full season of involvement plus board approval), or Class A will quietly become a closed group.

Membership policy — items the bylaws must cover

- Eligibility criteria for each class and the process for applying
- Annual membership fee for each class, if any, and the renewal date
- Whether registration in a program automatically confers membership, and of which class
- Procedure and criteria for transferring from Class B to Class A
- Grounds and procedure for suspension, discipline and termination of membership, including a right to be heard
- Whether membership is transferable (normally it is not)
- Quorum for member meetings, notice period, and proxy rules
- Conflict-of-interest declaration required of members who are also paid contractors

2.3 Board and Governance

Element	Recommended position
Board size	5–9 directors; an odd number avoids deadlock. Start at 5 and grow.
Officers	President / Chair, Vice-President, Secretary, Treasurer, appointed by the board
Terms	Two-year staggered terms so the whole board does not turn over at once
Meeting cadence	Board meets at least quarterly; executive committee monthly during launch
Annual meeting	Annual meeting of members within the period required by the Act; financials presented
Committees	Finance and Audit; Safe Sport and Risk; Programs and Coaching; Events; Fundraising and Sponsorship
Conflict of interest	Written policy; standing declaration; directors with an interest withdraw from the relevant decision
Executive Director	Reports to the board; holds delegated operating authority within an approved budget
Financial controls	Two-signature requirement above a set threshold; board-approved annual budget; monthly reporting
Records	Minute book, member register by class, director register, financial records maintained at the records office

Founder role in a non-profit

The founder does not own NAA and cannot be paid a share of surplus. Compensation must be for services actually performed, at fair market value, approved by the board with the founder abstaining. Influence is exercised through the Executive Director role and through board composition — not through ownership. This should be understood clearly by everyone involved before the first board is seated, because it is the most common source of conflict in founder-led non-profits.

2.4 Compliance and Registration Checklist

Item	Status / action	Owner
Articles of Incorporation filed with ISC Saskatchewan	Complete	Founder
Bylaws drafted and adopted by the members	Required — must include the membership policy items in §2.2	Board / legal
First directors appointed; officers elected; minute book opened	Required	Board
Member register established by class	Required — statutory record	Secretary
CRA Business Number and GST/HST account	Required — confirm public service body threshold	Accountant

Item	Status / action	Owner
Saskatchewan PST vendor's licence via SETS	Required — PST applies to admissions and memberships to athletic and recreational facilities; confirm treatment of instructional programs with the Ministry of Finance	Accountant
Business bank account and merchant processing	Required — set two-signature authority	Treasurer
Municipal business licence, City of Regina	Confirm requirement for a non-profit operating at rented venues	Operations
WCB Saskatchewan account	Required if employees are engaged; contractors assessed separately	Operations
Insurance — CGL, participant accident, abuse, D&O	Required before any programming	Executive Director
Provincial sport organization memberships	Apply per sport delivered	Technical Director
Charitable registration with CRA	Optional, separate application — assess in Year 2	Board
Trademark search and CIPO filing on wordmark and crest	Recommended	Founder
T1044 NPO Information Return	Assess annually against thresholds	Accountant

2.5 Mission, Vision and Values

Mission

To make high-quality, structured, multi-sport training accessible to every family in Regina — building physical literacy, competitive ability and character in athletes of all ages, across all sports, from one trusted academy.

Vision

To be Saskatchewan's leading multi-sport academy: the first place a family looks when a child wants to try a sport, when a youth athlete wants to get better, and when an adult wants to get stronger.

Core Values

Value	What it means in practice
Excellence	Certified coaches, structured curricula, measurable athlete progress, no filler sessions.
Access	Subsidized spaces, newcomer outreach, equipment lending, no child turned away for cost alone.
Safety	Screened coaches, Safe Sport compliance, age-appropriate loading, concussion protocols.
Multi-Sport	Athletes are encouraged to play several sports; early specialization is actively discouraged.
Community	Sport as a place where a diverse city meets, competes and belongs.
Integrity	Transparent fees, honest communication with families, accountable financial management.

2.6 Brand Identity

The NAA identity is a circular crest built on a maple leaf, three athlete silhouettes and three stars, framed by a navy ring carrying the wordmark and a gold "CANADA" mark at the base. The crest signals national scope, multi-sport delivery and institutional credibility.

Role	Colour	HEX	RGB	Primary use
Primary	Navy Blue	#021F47	2, 31, 71	Headers, navigation, footers, body text, structural fields
Accent / action	Maroon Red	#83161B	131, 22, 27	Buttons, calls to action, active states, key headings
Secondary accent	Deep Maple Red	#7D161A	125, 22, 26	Hover states, gradients, secondary accents
Highlight	Gold	#DDAA40	221, 170, 64	Badges, awards, achievement markers, small highlights
Base	White / Off-white	#FDFCFD	253, 252, 253	Content backgrounds, reversed text
Neutral	Light Grey	#F2F3F5	242, 243, 245	Cards, table banding, section dividers

- **Accessibility note.** Navy on white and white on navy or maroon meet WCAG 2.1 AA for body text. Gold has insufficient contrast on both white and maroon backgrounds and must be reserved for large headings, icons and decorative accents — never body copy.
- **Usage discipline.** Maroon should be reserved for interactive and action elements so that red does not read as a system warning. Navy carries the structural weight of the interface.

2.7 Location and Service Area

Tier	Area	Role
Core	City of Regina	All programs, all pillars, primary participant base
Secondary	Regina CMA — White City, Emerald Park, Pilot Butte, Balgonie, Lumsden, Pense, Regina Beach	Weekend programs, camps, event attendance
Regional	Moose Jaw, Fort Qu'Appelle, Indian Head, Weyburn, Yorkton	Tournaments, invitational events, clinics, satellite delivery (Phase 3)
Provincial	Saskatoon and provincial corridor	Championship events, provincial partnerships (Phase 4)

3. Market Analysis

3.1 Market Context

Regina is a mid-sized prairie capital with a metropolitan population in the range of 260,000–280,000, growing steadily through interprovincial and international migration. The city has an unusually strong municipal and institutional sport base for its size, including a major athletics fieldhouse, a large multi-venue exhibition and sport district, a university sport and kinesiology centre, extensive community centre and school gymnasium infrastructure, and an active network of community associations.

Three structural characteristics of the Saskatchewan market are directly relevant to NAA:

- **Organized sport funding.** Saskatchewan Lotteries funds amateur sport, culture and recreation through Sask Sport Inc. and community grant programs. Non-profit sport organizations in good standing with their provincial sport governing body can access operating, program and equipment funding that is not available in most provinces at comparable scale.
- **Demographic change.** Sustained immigration, notably from South Asia, the Philippines, Nigeria and Ukraine, has shifted local sport demand. Cricket, badminton, table tennis and futsal now have substantial participant bases that traditional prairie sport organizations have been slow to serve with structured youth development pathways.
- **Fragmented delivery.** Youth sport in Regina is delivered largely by volunteer-run single-sport clubs and community associations. Quality is uneven, administration is often manual, and no single organization offers a family a consolidated multi-sport pathway.

3.2 Target Segments

Segment	Profile	Need	Primary programs
Introductory families (ages 4–8)	First-time sport parents; want fun, safety and variety before committing to one sport	Low-pressure exposure, convenient scheduling, one place for siblings	Multi-Sport Fundamentals, Little Athletes, intro chess, birthday parties
Developing athletes (ages 9–13)	Playing one or two club sports; parents want technical improvement	Skill development beyond what a volunteer club team provides	Sport-specific academies, skills clinics, camps, competitive chess
Competitive youth (ages 14–17)	School and club team athletes, some targeting post-secondary sport	Strength and conditioning, speed, injury prevention, exposure events	Youth performance training, sport academies, showcase tournaments
Adults (18+)	Working adults seeking fitness, skills or recreational competition	Structured, coached training that isn't a commercial gym	Adult S&C, MMA and martial arts, adult leagues, drop-in sport
Newcomer families	Recently arrived; strong sport culture from home country	Affordable access, familiar sports, community connection, English-friendly delivery	Cricket, badminton, table tennis, chess, subsidized access programs

Segment	Profile	Need	Primary programs
Schools	Public, Catholic, francophone and independent schools	Turnkey sports days, PD-day programming, in-school skill delivery	Sports Day packages, school partnership program, PD-day camps
Employers and groups	Corporate teams, community associations, faith and cultural groups	Team-building events, tournaments, facility-plus-staff packages	Corporate sports days, private tournaments, group bookings

3.3 Competitive Landscape

NAA does not compete with any single organization across its full offering. It competes partially with several categories of provider:

Competitor type	Strengths	Weaknesses NAA exploits
Single-sport community clubs	Established, affordable, league-affiliated, deep volunteer base	One sport only; volunteer-dependent quality; limited off-season; weak administration
Private sport academies (soccer, basketball, hockey)	Specialist coaching, competitive reputation	Narrow; expensive; little strength and conditioning integration; no family bundle
Martial arts and MMA studios	Strong retention, established membership model	Combat sport only; limited youth athletic development; no team-sport pathway
Commercial gyms and personal trainers	Convenient, wide availability	Not designed for youth athletes; no sport-specific programming; no coaching pathway
City of Regina and community associations	Low cost, broad reach, trusted	Introductory level only; limited progression; capacity-constrained
Chess clubs and school chess	Low cost, community-based	Informal instruction; limited structured curriculum or age-graded streams

3.4 Positioning

NAA's position is defined by a single sentence:

> **Positioning statement**
>
> For Regina families who want more than a volunteer-run rec league but less than a single-sport elite academy, National Athletics Academy is the one organization that trains the whole family across many sports — physical and mental, beginner to competitive — with certified coaches, structured curricula, and a single account for everything.

3.5 SWOT Analysis

Strengths — internal, positive	Weaknesses — internal, negative
Multi-sport breadth no local competitor matches	No operating history or athlete results yet

Strengths — internal, positive	Weaknesses — internal, negative
Founder's proven experience launching a Regina sport organization	Dependent on rented facilities and their availability
Asset-light model with low fixed cost at launch	Breadth risks being perceived as lacking depth
Strong, professional brand identity from day one	Coach recruitment in a small labour market
Cross-sell economics across pillars	Founder capacity across multiple concurrent ventures
Year-round revenue from chess, S&C and MMA	Combat sport programming carries added compliance burden

Opportunities — external, positive	Threats — external, negative
Under-served demand in cricket, badminton, table tennis	Facility scarcity and rising rental rates in peak season
Sask Lotteries / Sask Sport grant funding available to non-profits	Established clubs defending territory at the PSO level
School division partnerships for sports days and PD days	Economic pressure reducing discretionary family spending
Corporate wellness and team-building market	Coach turnover and certification bottlenecks
Newcomer settlement agency partnerships	Insurance cost and availability for combat sport programming
Eventual dedicated facility as an asset and revenue centre	Seasonal cash flow gaps between registration windows

4. Programs and Services

4.1 Program Architecture

All NAA programming is organized into five pillars. Every program in every pillar shares a common structure: a defined curriculum, a stated set of outcomes, a fixed block length, an assigned lead coach, an athlete-to-coach ratio, and an end-of-block assessment or showcase.

Pillar	Programs	Delivery	Season
1 — Multi-Sport Training	Soccer, basketball, volleyball, badminton, athletics, cricket, table tennis; later futsal, ball hockey, pickleball, flag football, tennis	8–10 week blocks, 1–2 sessions per week	Fall, Winter, Spring, Summer
2 — Strength, Conditioning & Combat	Physical literacy (kids), youth athletic performance, adult S&C, MMA / striking / grappling skills, self-defence	Monthly membership, 2–4 sessions per week	Year-round
3 — Mind Sports	Chess: beginner, intermediate, competitive, adult; chess tournaments and simuls	8–10 week blocks, weekly; monthly tournaments	Year-round
4 — Events & Tournaments	NAA invitational tournaments, sports days, school and corporate events, community festivals, birthday parties	Single-day and multi-day events	Scheduled calendar
5 — Camps, Clinics & Schools	Summer day camps, school-break camps, PD-day camps, specialist clinics, in-school delivery	Full-day and half-day weeks; single-day clinics	School breaks and summer

4.2 Pillar 1 — Multi-Sport Training

The core of the Academy. Sports are introduced in phases so that coaching quality, equipment and facility access scale in a controlled way rather than launching everything at once.

Sport rollout by phase

Phase	Sports	Rationale	Facility need
Phase 1 (Launch)	Soccer / futsal, Basketball, Volleyball, Badminton, Athletics (track & field fundamentals)	Highest demand; deliverable in standard school and community gymnasiums with modest equipment	School gyms, community centre gyms, fieldhouse
Phase 2 (+6 months)	Cricket, Table tennis, Ball hockey / floor hockey, Pickleball	Strong under-served demand; still gym-deliverable; low incremental equipment cost	School gyms, indoor turf, multi-purpose halls
Phase 3 (+18 months)	Flag football, Tennis, Wrestling, Boxing (non-contact skills), Gymnastics fundamentals	Broadens pathway; requires more specialized coaching and mats/space	Turf, courts, matted training space

Phase	Sports	Rationale	Facility need
Phase 4 (Partnership)	Ice hockey, Swimming, Skating, Baseball / softball	High facility cost; delivered through partnership agreements rather than owned capacity	Arena, aquatic centre, diamonds — partner-supplied

Program tiers within each sport

Tier	Ages	Format	Focus	Ratio
Discover	4–7	8 weeks × 45 min, 1×/week	Fun, movement, basic skills, no scorekeeping	1:8
Develop	8–12	10 weeks × 60 min, 1×/week	Technical fundamentals, small-sided games	1:10
Advance	10–15	10 weeks × 90 min, 2×/week	Position skills, tactics, game application	1:10
Perform	13–18	10 weeks × 90 min, 2×/week + S&C	Competitive preparation, athletic performance integration	1:8
Adult Recreational	18+	8 weeks × 90 min, 1×/week	Skills and structured play	1:12

4.3 Pillar 2 — Strength, Conditioning and Combat Sports

This pillar operates on a recurring monthly membership rather than seasonal blocks, which makes it the most valuable pillar for cash flow stability. It also feeds every other pillar: athletes in sport academies are cross-enrolled into age-appropriate conditioning.

Strength and conditioning streams

Stream	Ages	Emphasis	Frequency
Physical Literacy	5–9	Agility, balance, coordination, bodyweight movement, play-based; no external loading	1–2×/week
Youth Foundations	10–13	Movement competency, bodyweight strength, landing mechanics, speed fundamentals	2×/week
Youth Performance	14–17	Progressive resistance training, speed, power, injury prevention, testing benchmarks	2–3×/week
Adult Strength	18+	General strength, conditioning, mobility, coached small-group training	Unlimited
Return-to-Sport	All ages	Post-injury reconditioning in coordination with the athlete's healthcare provider	As prescribed

Mixed martial arts and combat sport streams

NAA delivers combat sport as skill development, fitness and discipline training — not as a fight-promotion business.

Program	Ages	Content	Contact level
Little Warriors	5–8	Movement, discipline, basic striking form on pads, falling safely, respect and rules	No partner contact
Kids MMA Fundamentals	9–12	Striking mechanics, wrestling and grappling basics, positional control, drills	Controlled, supervised, protective equipment
Youth MMA	13–17	Integrated striking and grappling, conditioning, controlled sparring with full protective gear	Controlled sparring only
Adult MMA / Striking / Grappling	18+	Boxing, kickboxing/Muay Thai, wrestling, BJJ-style grappling, MMA integration	Optional graded sparring
Self-Defence	13+ and adults	Practical personal safety, awareness, escapes; women-only cohorts offered	Drill-based

Regulatory note — combat sports

Section 83 of the Criminal Code of Canada governs prize fighting. Amateur combat sport contests are lawful only in defined circumstances, including where the sport is on the Olympic or Paralympic programme, or where the contest is permitted by the province's athletic commission or designated authority. NAA's Phase 1 combat programming is training, skills and fitness only — no sanctioned bouts, no ticketed contests, no prize fighting. Before hosting any competitive combat event, obtain written confirmation of sanctioning requirements from the applicable provincial and City of Regina authorities and confirm insurance coverage in writing.

4.4 Pillar 3 — Mind Sports: The Chess Academy

Chess is programmed with the same rigour as physical sport: graded streams, a defined curriculum, rated tournament play and measurable progression. It is low-cost to deliver, runs year-round, is unaffected by weather or facility scarcity, and reaches families who may not enrol in physical sport.

Program	Ages	Format	Curriculum focus
Chess Discover	5–8	8 weeks × 45 min	Piece movement, board awareness, basic checkmates, sportsmanship
Chess Develop	8–12	8 weeks × 60 min	Tactics (pins, forks, skewers), opening principles, endgame basics, notation
Chess Compete	9–17	10 weeks × 90 min	Tactical calculation, opening repertoire, middlegame plans, clock management, rated play
Adult Chess	18+	8 weeks × 90 min	Structured improvement, analysis, tournament preparation
Chess Camps	6–15	Full/half-day, school breaks	Intensive training plus in-house tournament
Chess Events	All	Monthly rapid; quarterly rated	In-house tournaments; pathway to provincial and national rated events

4.5 Pillar 4 — Events, Tournaments and Sports Days

NAA-hosted tournaments

Hosting events generates revenue, builds brand authority, creates sponsorship inventory, and gives NAA athletes competition without depending on external league calendars.

Event	Format	Scale	Revenue model
NAA Indoor Invitational	Soccer / futsal, age-graded	16–24 teams	Team entry, gate, concession, vendor tables, sponsor packages
Prairie Hoops Classic	Basketball, age-graded	16–20 teams	Team entry, gate, sponsorship
NAA Badminton & Table Tennis Open	Singles and doubles brackets	80–150 entries	Individual entry, sponsorship
Regina Youth Cricket Cup	Modified formats, youth divisions	8–12 teams	Team entry, sponsorship, concessions
NAA Chess Championships	Rated, age-sectioned	60–120 entries	Entry fees, sponsorship
NAA Athletics Meet	Track and field, age-graded	150–300 entries	Entry fees, sponsorship, facility partner split
Grappling & Striking Showcase	Skills demonstration and drill competition (non-bout)	60–100 entries	Entry fees, spectator admission

Sports days and group bookings

Package	Audience	Duration	Capacity	Includes
School Sports Day	K–12 schools	3–6 hours	Up to 300	Station-based multi-sport rotation, NAA staff, equipment, ribbons/medals
Corporate Sports Day	Employers, teams	3–4 hours	Up to 120	Team-building tournament format, staffing, scoring, awards
Community Festival	Associations, cultural and faith groups	4–8 hours	Open	Multi-sport zones, demonstrations, coaching taster sessions
PD-Day Camp	Schools / parents	Full day	Up to 60	Supervised multi-sport day on school professional development days
Birthday Party	Families	2 hours	Up to 20 kids	Coached games, activity room, host staff, setup and cleanup

4.6 Pillar 5 — Camps, Clinics and School Partnerships

Offering	When	Format	Notes
Summer Multi-Sport Camp	July–August	Full day, Mon–Fri, weekly themes	Flagship summer revenue driver; before/after care add-on
Winter and Spring Break Camps	Dec, Feb, Apr	Full or half day	High demand due to limited alternatives
Specialist Clinics	Weekends, year-round	2–4 hour single sessions	Goalkeeping, shooting, serving, speed, wrestling, chess tactics
Guest Coach Series	Quarterly	Half-day masterclass	Visiting provincial, university or professional coaches; strong marketing value
In-School Delivery	School year	Weekly blocks during PE or after school	Contracted to school divisions; introduces NAA to whole cohorts
Newcomer Sport Access	Year-round	Subsidized or free blocks	Delivered with settlement agencies; grant-funded

4.7 The Athlete Pathway

NAA programming is aligned to Canada's Long-Term Development in Sport and Physical Activity framework. The pathway gives families a clear answer to "what comes next?", which is the single strongest driver of multi-year retention.

Stage	Ages	NAA programs	Objective
Active Start	4–6	Multi-Sport Discover, Little Warriors, Chess Discover	Movement, fun, confidence
FUNdamentals	6–9	Multi-Sport Discover/Develop, Physical Literacy, Chess Develop	Fundamental movement skills across many sports
Learn to Train	9–12	Sport Develop tiers, Youth Foundations S&C, Kids MMA, Chess Compete	Skill acquisition; broad sampling maintained
Train to Train	12–15	Sport Advance, Youth Performance S&C, Youth MMA	Sport-specific development plus athletic base
Train to Compete	15–18	Sport Perform, Youth Performance, showcase events	Competitive performance and post-secondary preparation
Active for Life	18+	Adult sport, Adult S&C, Adult MMA, Adult Chess, leagues	Lifelong participation

5. Operations Plan

5.1 Facility Strategy

Facility cost is the largest controllable risk in this business. NAA therefore follows a deliberate four-stage facility strategy rather than leasing space at launch.

Stage	Approach	Typical cost	Trigger to advance
Stage 1 — Rent by the hour	School gymnasiums (Regina Public and Regina Catholic divisions), City of Regina community centres and indoor spaces, community association halls	$35–$80 / hour	Launch position
Stage 2 — Anchor bookings	Secure recurring seasonal blocks at two or three preferred venues; add specialist venues (fieldhouse, indoor turf, university facilities) for specific programs	$45–$120 / hour	Consistent fill above 70% capacity
Stage 3 — Shared or sublease space	Sublease or share a warehouse-style unit for the permanent strength, conditioning and MMA training room with matted flooring	$14–$22 / sq ft / year	Membership pillar exceeds ~120 active members
Stage 4 — Dedicated NAA facility	12,000–25,000 sq ft multi-court facility with turf, courts, training room, chess/classroom space and administration	Lease or purchase — full feasibility study required	Sustained revenue above ~$700k and three consecutive profitable years

Facility requirements by pillar

Pillar	Space required	Surface / features	Storage
Court sports (basketball, volleyball, badminton, table tennis)	Full-size or double gymnasium	Sprung or hardwood floor, adjustable nets, line markings	Nets, standards, balls, tables
Soccer / futsal	Gymnasium or indoor turf	Futsal-suitable floor or 3G turf, boards preferred	Balls, cones, pop-up goals
Athletics	Fieldhouse or long gym	Straight run of 40m+, mats, throwing area	Hurdles, batons, mats, timing gear
Cricket	Indoor turf or large hall	Nets or cage, run-up space	Nets, bats, soft/incrediballs, stumps
Strength & conditioning	1,500–3,000 sq ft	Rubber flooring, racks, turf strip, mirrors, ventilation	Racks, bars, plates, dumbbells, bands
MMA / combat	1,200–2,500 sq ft	Continuous mat surface, wall pads, heavy bag mounts, first aid station	Bags, pads, gloves, mats
Chess	Classroom or meeting room	Tables, chairs, projector or demo board, quiet	Sets, clocks, boards, score sheets

5.2 Equipment Plan

Category	Items	Lean launch	Full launch
Court sports	Balls (soccer, basketball, volleyball), badminton racquets and shuttles, table tennis tables and paddles, portable nets, cones, bibs, ball carts	$6,500	$14,000
Athletics	Hurdles, relay batons, measuring tape, stopwatches, agility ladders, throwing implements, landing mats	$2,000	$4,500
Cricket	Portable nets, junior bats, soft balls, stumps, protective gear	$1,800	$3,500
Strength & conditioning	Racks, barbells, bumper plates, dumbbells, kettlebells, benches, bands, med balls, sleds, flooring	$12,000	$26,000
MMA / combat	Interlocking mats, heavy bags, Thai pads, focus mitts, gloves, headgear, shin guards, grappling dummies	$8,000	$17,000
Chess	30 tournament sets and boards, 20 digital clocks, demo board, scorebooks, storage	$1,800	$3,200
Events	Scoreboards, PA system, tents, banners, medals, tables, first aid kits, signage	$3,000	$7,000
Apparel (initial stock)	Training tops, hoodies, shorts, socks, bags with NAA crest	$4,500	$9,000
Technology and office	Laptops, tablets for check-in, printer, POS terminal, camera, storage	$2,500	$5,000
Total equipment		**$42,100**	**$89,200**

5.3 Weekly Operating Model

A representative in-season week once all pillars are live. Times are illustrative and depend on facility availability.

Day	Afternoon (3:30–6:00 pm)	Evening (6:00–9:30 pm)
Monday	Multi-Sport Discover (4–7); Physical Literacy	Basketball Develop/Advance; Adult S&C; Adult MMA
Tuesday	Chess Discover and Develop; Youth Foundations S&C	Volleyball Develop/Advance; Youth Performance S&C; Adult Striking
Wednesday	Multi-Sport Develop (8–12); Little Warriors MMA	Soccer/Futsal Academy; Adult S&C; Adult Grappling
Thursday	Badminton and Table Tennis Develop; Physical Literacy	Chess Compete; Youth MMA; Youth Performance S&C

Day	Afternoon (3:30–6:00 pm)	Evening (6:00–9:30 pm)
Friday	Kids MMA Fundamentals; open gym	Adult recreational sport; drop-in S&C; birthday party slot
Saturday	Sport academies (multiple); camps and clinics; chess tournaments	Adult leagues; private and semi-private coaching
Sunday	Sport academies; Discover programs; make-up sessions	Tournaments and events (scheduled); facility reserve

5.4 Registration and Technology Stack

Function	Recommended approach	Notes
Registration and payments	Sport registration platform (for example RAMP, TeamLinkt, Uplifter or Amilia)	Must support seasonal blocks, recurring memberships, waivers, families with multiple children, and installment payments
Website	WordPress or a modern static/Laravel build on the NAA brand system	Program catalogue, registration links, event pages, coach bios, sponsor recognition
Payments	Stripe or Square, plus a Canadian merchant account	Support pre-authorized monthly billing for the membership pillar
Accounting	Wave, QuickBooks Online or Xero	Class/segment tracking by pillar so each pillar's margin is visible
Contractor management	Standardized independent contractor agreements, W-9/T4A tracking, invoice intake	Mirrors an already-proven process from the founder's existing sport organization
Communication	Email platform plus SMS for game-day and cancellation notices	Parent communication reliability is a top-three retention driver
Attendance and check-in	Tablet-based check-in at each venue	Required for insurance, ratios and incident records
Athlete progress	Simple assessment template per program tier	End-of-block report to families — a key differentiator versus rec leagues

5.5 Annual Calendar

Period	Programs running	Business activity
September – December	Fall blocks all sports; S&C and MMA memberships; chess	Peak registration; sponsor renewals; fall tournament; PD-day camps
January – March	Winter blocks; indoor season peak; memberships; chess	Second peak registration; winter tournaments; February break camp
April – June	Spring blocks; outdoor transition; memberships	Spring registration; athletics meet; school sports day season; summer camp sales
July – August	Summer camps; adult leagues; memberships; open training	Camp delivery; facility contracting for next season; annual planning and budgeting; coach recruitment

6. Organization and Staffing

6.1 Structure

NAA runs a small salaried core supported by a large pool of independent contract coaches. This keeps fixed payroll low and allows capacity to flex with registration volume.

Role	Type	Year 1	Year 3	Responsibilities
Founder / Executive Director	Owner	1 (part-time)	1 (full-time)	Strategy, finance, partnerships, sponsorship, governance
Operations Manager	PT → FT	1 (part-time)	1 (full-time)	Scheduling, facilities, registration, staff coordination, day-to-day delivery
Technical Director	Contract → PT	0.5	1	Curriculum, coach development, program quality, assessments
Head Coach — per sport	Contract	4–6	10–12	Lead delivery of a sport's programs; supervise assistants
Assistant Coaches	Contract	6–8	16–20	Session delivery, supervision, equipment
S&C Lead	Contract → PT	1	2	Strength and conditioning programming and delivery
Combat Sport Lead	Contract	1	2	MMA and martial arts curriculum and delivery
Chess Director	Contract	1	1	Chess curriculum, coaching, tournament direction
Events Coordinator	Contract → PT	0.25	1	Tournaments, sports days, corporate bookings
Marketing / Admin	Contract → PT	0.25	1	Website, social, campaigns, registration support

6.2 Coach Recruitment and Standards

Coaching quality is the product. NAA sets a minimum standard that is publicly stated on the website, because it is a primary differentiator against volunteer-run alternatives.

Minimum requirements — all coaches

- Criminal Record Check including Vulnerable Sector Check, renewed on a defined cycle
- Current Standard First Aid and CPR-C certification
- Respect in Sport (Activity Leader) or equivalent Safe Sport training
- Concussion awareness training and acknowledgement of NAA's concussion protocol
- Signed independent contractor agreement, code of conduct and confidentiality terms
- NCCP certification or in-training status appropriate to the sport and level (through the Coaches Association of Saskatchewan / provincial sport organization)

Recruitment channels

Channel	Target	Notes
University of Regina — Kinesiology and Sport Studies	Student and graduate coaches, practicum placements	Strong pipeline; supports S&C and athletics pillars
Provincial sport organizations	Certified coaches seeking additional hours	Post through PSO channels and coach directories
Local clubs and high school programs	Experienced coaches wanting paid work	Careful not to poach in a way that damages partnerships
Cultural and community associations	Cricket, badminton, table tennis, chess specialists	Often highly skilled and under-utilized locally
Martial arts community	Qualified instructors with verified lineage and credentials	Verify certifications and insurance carefully
Indeed and job boards	General coaching and camp staff	Proven channel from the founder's prior recruitment

6.3 Compensation Model

Role	Rate	Basis
Assistant Coach	$22 – $28 / hour	Contact hours plus paid setup allowance
Head Coach (sport)	$35 – $50 / hour	Contact hours plus planning stipend per block
S&C Coach (certified)	$40 – $60 / hour	Contact hours; premium for CSCS or equivalent
Combat Sport Instructor	$40 – $65 / hour	Contact hours; premium for verified credentials
Chess Coach	$30 – $50 / hour	Rating-dependent; tournament direction paid separately
Camp Staff	$18 – $24 / hour	Full-day rate; lead counsellor premium
Private coaching	60% to coach / 40% to NAA	Revenue share on 1:1 and semi-private sessions
Event staff	$150 – $300 / event day	Flat rate by role

> **Contractor classification**
> Engaging coaches as independent contractors rather than employees is standard in Canadian sport but is not automatic. CRA applies a control, ownership-of-tools, chance-of-profit and integration test. Written agreements, coach-set availability, coach-supplied equipment where practical, and invoice-based payment support contractor status. T4A slips are issued where required. Have the agreement template and classification reviewed by an accountant before scaling coaching staff.

6.4 Volunteer Program

A structured volunteer stream reduces cost, deepens community ties, and creates a coach development pipeline. Volunteers are screened to the same standard as paid staff where they have unsupervised access to minors.

- Junior Coach program for athletes aged 14–17 — leadership training, volunteer hours toward graduation requirements, priority hiring at 18
- Event volunteers for tournaments and sports days
- Parent committee for equipment, registration desk and event logistics
- Committee service feeding the board pipeline — see the committee structure in §2.3

7. Marketing and Growth Strategy

7.1 Messaging

Audience	Primary message	Proof point
Parents of young children	One place for every sport your child wants to try.	Multi-sport blocks, sibling scheduling, single family account
Parents of developing athletes	Real coaching, real progression, measurable improvement.	Certified coaches, defined curriculum, end-of-block athlete reports
Youth athletes	Get faster, stronger, and better than last season.	Performance testing benchmarks, showcase events
Adults	Coached training, not a gym membership.	Small-group ratios, programmed sessions, adult leagues
Newcomer families	The sports you grew up with, for your kids, here.	Cricket, badminton, table tennis, chess; subsidized access
Schools and employers	A complete sports day, delivered by us.	Turnkey packages, staff, equipment, insurance, setup and cleanup

7.2 Channels

Channel	Role	Year 1 budget
Meta advertising (Facebook / Instagram)	Primary paid acquisition; geo-targeted to Regina and CMA; registration-window campaigns	$6,000
Google Search and Google Ad Grant	Capture high-intent searches; NAA's non-profit status supports a Google Ad Grant application	$1,800
Website and SEO	Program catalogue, conversion, local search authority	$2,500
School and division partnerships	Flyer distribution, PE demos, sports days as a sales channel	$1,200
Community and cultural associations	Direct outreach to cricket, badminton, chess and cultural communities	$800
Referral program	Credit to referring family and new family	$1,200
Events as marketing	Free taster days, open houses, festival presence	$1,500
Print and local media	Community papers, radio, facility signage	$1,000
Total		**$16,000**

7.3 Launch Campaign

Weeks	Activity	Objective
−10 to −8	Brand assets, website live, registration platform configured, program catalogue published	Infrastructure ready

Weeks	Activity	Objective
−8 to −6	Founding coach announcements; facility partnerships announced; social channels seeded	Credibility
−6 to −4	Free community open house and taster day; school flyer distribution; PR to local media	Awareness and email list
−4 to −2	Early-bird registration opens with founding-member pricing; Meta and Google campaigns live	Conversion
−2 to 0	Final push; sibling and referral offers; waitlist management; coach onboarding complete	Fill capacity
0 to +4	Delivery excellence; photo and video capture; testimonial collection; first showcase	Retention and social proof

7.4 Retention

Acquisition is expensive; retention is the profit engine. Target retention above 65% block-to-block by year two.

- Priority re-registration window for current participants before public opening
- Multi-program and sibling discounts that make the second and third enrolment obviously worthwhile
- End-of-block athlete progress reports — rare in local youth sport and disproportionately valued by parents
- Showcase or festival day at the end of each block so families see the result
- Reliable, proactive communication: schedules published early, cancellations announced immediately
- Annual awards night recognizing athletes, volunteers, coaches and sponsors
- Loyalty pricing for families in a third consecutive season

7.5 Sponsorship and Partnerships

Tier	Annual value	Benefits
Title Partner	$15,000+	Naming rights on a program or event series, crest lock-up placement, all event branding, jersey placement
Platinum	$7,500	Event naming, banner placement at all venues, website and social recognition, program mentions
Gold	$3,500	Banner placement, website listing, event recognition, social features
Silver	$1,500	Website listing, event signage, social mention
Community Supporter	$500	Website listing, event program recognition
In-kind	Variable	Equipment, apparel, facility access, medical or physiotherapy services, food for events

Partnership targets

- Regina Public Schools and Regina Catholic Schools — facility access and in-school delivery
- City of Regina Recreation — facility access and joint community programming
- University of Regina — coach pipeline, practicum students, facility access
- Provincial sport organizations — sanctioning, coach certification, athlete pathway
- Settlement and newcomer agencies — outreach and subsidized access delivery
- Local physiotherapy and sport medicine clinics — injury referral and return-to-sport services
- Local business community — sponsorship, corporate sports days, employee wellness

8. Financial Plan

All figures are planning estimates in Canadian dollars, exclusive of GST and PST unless noted. They should be replaced with quoted figures as facility, insurance and equipment pricing is confirmed.

8.1 Startup Capital Requirement

Category	Lean launch	Full launch	Notes
Incorporation, legal, bylaws, agreements	$1,800	$3,200	Includes contractor and waiver templates
Registrations (GST, PST, municipal, WCB)	$300	$500	
Insurance — first year premium	$3,800	$5,500	CGL, participant accident, abuse, D&O; combat sport adds cost
Brand, website and digital build	$3,500	$8,000	Crest already complete
Registration platform setup and first year	$900	$1,800	
Equipment (all pillars, excl. apparel and tech)	$35,100	$75,200	Per §5.2; lean defers most S&C and MMA build-out
Apparel initial inventory	$4,500	$9,000	
Facility deposits and pre-season bookings	$3,500	$7,000	
Marketing launch campaign	$5,000	$10,000	
Coach certification, first aid, screening subsidies	$1,800	$3,500	
Office, technology, POS	$2,500	$5,000	
Working capital reserve	$0	$8,000	Strongly recommended
Subtotal	$62,700	$136,700	
Contingency (10%)	$6,270	$13,670	
Total startup requirement	**$68,970**	**$150,370**	

A realistic launch sits between these two columns at approximately $95,000–$110,000: full Phase 1 sport equipment and a partial strength and conditioning build, with the dedicated MMA matted space and heavier equipment deferred until the membership pillar has demonstrated sustained demand. The lean column assumes Pillars 1 and 3 plus a minimal conditioning offering.

8.2 Pricing Schedule

Program	Format	Price	Effective hourly
Multi-Sport Discover (4–7)	8 weeks × 45 min	$165	$27.50
Multi-Sport Develop (8–12)	10 weeks × 60 min	$215	$21.50
Sport Academy — Advance/Perform	10 weeks × 90 min, 2×/week	$395	$13.20
Physical Literacy (5–9)	Monthly, 1–2×/week	$95 / month	—
Youth S&C (10–17)	Monthly, unlimited	$125 / month	—
Adult S&C (18+)	Monthly, unlimited	$145 / month	—
Little Warriors / Kids MMA	Monthly, 2×/week	$115 / month	—
Youth / Adult MMA	Monthly, unlimited	$155 / month	—
Chess Discover / Develop	8 weeks × 45–60 min	$150	—
Chess Compete	10 weeks × 90 min	$240	$16.00
Drop-in class	Single session	$22	—
Private coaching (1:1)	60 min	$85	—
Semi-private (2–4 athletes)	60 min	$45 / athlete	—
Full-day camp	5 days	$285	—
Half-day camp	5 days	$165	—
School Sports Day	3–6 hours, up to 300	$1,200 – $2,800	—
Corporate Sports Day	3–4 hours, up to 120	$1,500 – $3,000	—
Birthday party	2 hours, up to 20	$325	—
Annual academy membership	Per athlete, per year	$45	Covers insurance and administration
Tournament team entry	Per team, per event	$450 – $900	—

Discounts and access

- Sibling discount: 10% on the second child, 15% on the third and subsequent
- Multi-program discount: 10% when a participant enrols in two or more concurrent programs
- Early-bird: 10% within the first two weeks of a registration window
- Subsidized access: a defined number of fully or partially funded spots per block, funded from grants, sponsorship and surplus, and delivered with partner agencies; also accept Canadian Tire Jumpstart and KidSport Saskatchewan funding
- Payment plans: monthly installments on programs above $250

8.3 Revenue Projections

Revenue stream	Year 1	Year 2	Year 3
Seasonal program registrations	$90,300	$138,000	$205,000
Memberships — S&C and MMA	$54,600	$92,000	$148,000
Camps and clinics	$34,450	$54,000	$82,000
Tournaments and events (net)	$19,200	$34,000	$56,000
Sponsorship and grants	$18,000	$32,000	$52,000
Private and semi-private coaching	$14,000	$22,000	$34,000
Sports days, schools, corporate, parties	$11,700	$21,000	$34,000
Chess academy	$10,800	$17,000	$26,000
Apparel and merchandise	$12,000	$20,000	$32,000
Total revenue	**$265,050**	**$430,000**	**$669,000**

Conservative case

The Year 1 figure above assumes successful launch of all five pillars within twelve months. A conservative scenario — Pillars 1, 2 and 3 only, with limited events — produces Year 1 revenue of approximately $185,000 against expenses of approximately $172,000, still a small positive result. Model both before approaching a lender.

8.4 Operating Expenses

Expense	Year 1	Year 2	Year 3	Basis
Coaching and instruction (contract)	$78,000	$132,000	$205,000	≈30% of program and membership revenue
Facility rental	$62,000	$88,000	$132,000	Hourly rentals scaling with programming
Core staff (Operations Manager, admin)	$30,000	$58,000	$92,000	Part-time to full-time transition
Marketing and advertising	$16,000	$24,000	$34,000	
Software, platform and merchant fees	$9,500	$14,000	$21,000	≈3.5% of processed revenue plus subscriptions
Insurance	$5,500	$8,000	$12,000	
Equipment replacement and consumables	$6,000	$11,000	$18,000	
Apparel cost of goods	$7,500	$12,000	$19,000	≈60% of apparel revenue
Professional fees (accounting, legal)	$6,000	$8,000	$11,000	
Coach certification and training	$3,000	$5,000	$8,000	

Expense	Year 1	Year 2	Year 3	Basis
Office, admin, travel, miscellaneous	$5,000	$8,000	$13,000	
Contingency	$8,000	$12,000	$18,000	
Total operating expenses	**$236,500**	**$380,000**	**$583,000**	

8.5 Summary Profit and Loss

	Year 1	Year 2	Year 3
Total revenue	$265,050	$430,000	$669,000
Total operating expenses	$236,500	$380,000	$583,000
Net operating surplus (reinvested)	$28,550	$50,000	$86,000
Operating margin	10.8%	11.6%	12.9%

As a non-profit, NAA distributes no surplus. Every dollar of surplus is reinvested: Years 1 and 2 fund equipment, the transition of core staff to full-time, the subsidized access pool, and the working capital reserve required before any dedicated facility commitment. The board should adopt a written reserve and surplus allocation policy in Year 1 so this is deliberate rather than incidental.

8.6 Break-Even Analysis

Measure	Value	Note
Fixed monthly costs	≈ $9,500	Core staff, insurance, software, professional fees, base marketing, anchor facility commitments, certification, office, contingency
Variable cost ratio	≈ 46%	Contract coaching, hourly facility, apparel cost of goods, consumables, merchant fees
Weighted contribution margin	≈ 54%	
Monthly break-even revenue	≈ $17,600	$9,500 ÷ 0.54
Annual break-even revenue	≈ $211,000	
Equivalent participant base	≈ 430 active paying participants	At blended revenue of ≈$490 per participant

8.7 Cash Flow Management

Sport businesses fail on cash timing rather than annual profitability. Registration revenue arrives in concentrated windows while facility and coaching costs are incurred evenly.

- Maintain a minimum operating reserve equal to two months of fixed costs (approximately $19,000)
- Collect program fees in full at registration wherever possible; reserve installment plans for higher-priced programs

- Negotiate facility payment terms that align with the registration calendar rather than monthly in advance
- Pay contract coaches on a predictable bi-weekly or monthly invoice cycle after service delivery
- Establish a line of credit before it is needed, not during the first shortfall
- Track deferred revenue properly — fees collected for a future block are a liability until the block is delivered
- Set aside GST and PST collected in a separate account

8.8 Funding Sources

Source	Type	Indicative amount	Notes
Founder loan or contribution	Debt / donation	$25,000 – $40,000	A non-profit cannot issue equity. Document as a repayable director loan on written terms, or as a non-repayable contribution — decide and record which.
Small business loan or line of credit	Debt	$25,000 – $50,000	Credit union or bank; equipment can serve as security
Futurpreneur Canada / BDC	Debt + mentorship	Up to $60,000	Eligibility criteria apply
Sask Sport / Saskatchewan Lotteries grants	Grant	Variable	NAA is eligible as a non-profit; requires good standing with the relevant provincial sport organization
City of Regina community grants	Grant	Variable	Community sport and recreation streams
Canadian Tire Jumpstart / KidSport	Participant subsidy	Per athlete	Funds participation cost, not operations
Corporate sponsorship	Revenue	$18,000+ Year 1	See §7.5
Pre-sales	Revenue	Variable	Founding-member pricing before launch funds working capital

9. Risk, Compliance and Safety

9.1 Legal and Regulatory Compliance

Area	Requirement	Owner
Corporate	Annual return to ISC, annual meeting of members, minute book, director and member registers by class, bylaw compliance	Secretary / Executive Director
Tax	GST/HST filing, PST collection and remittance, T4A issuance, T1044 NPO Information Return if thresholds are met; maintain 149(1)(l) exempt status by ensuring no income benefits a member personally	Accountant
Employment	Saskatchewan Employment Act compliance for any employees; WCB coverage	Operations Manager
Contractor status	CRA-defensible independent contractor agreements and practice	Accountant / legal
Privacy	Collection, storage and use of participant data — including minors' data — with consent and retention policy	Operations Manager
Facility	Rental agreements, certificates of insurance, capacity limits, fire and emergency procedures	Operations Manager
Combat sport	Confirm sanctioning and permitting requirements before any competitive event (see §4.3)	Executive Director
Music and media	Licensing for music used in classes and events; media consent from participants	Marketing

9.2 Insurance

Coverage	Purpose	Indicative limit
Commercial general liability	Third-party injury and property damage	$5,000,000
Participant accident	Injury to registered participants during programming	Per policy schedule
Abuse liability	Allegations arising from work with minors	$2,000,000+
Directors' and officers' liability	Protection for board and officers	$1,000,000+
Contents and equipment	Owned equipment at rented and stored locations	Replacement value
Commercial auto / non-owned auto	Transport of equipment and staff	As advised
Event-specific riders	Tournaments, festivals and off-site sports days	Per event

Disclose combat sport, contact sport and event-hosting activity to the broker in writing at the outset. Coverage declined or voided for undisclosed activity is one of the most severe risks in this business.

9.3 Safe Sport Framework

- Rule of Two — no coach alone and unobserved with a single participant, at any time, in any location
- Mandatory screening: Criminal Record Check with Vulnerable Sector Check for all staff, contractors and volunteers with access to minors
- Published code of conduct for coaches, athletes, parents and spectators, acknowledged at registration
- Defined complaint and discipline procedure with an independent reviewer for serious matters
- Concussion recognition, removal-from-play and graduated return-to-play protocol
- Emergency action plan posted at every venue: nearest hospital, emergency contacts, first aid location, AED location
- Incident reporting form completed for every injury, near-miss and behavioural incident
- Age-appropriate training loads; no adult training loads applied to pre-adolescent athletes
- Alignment with the Universal Code of Conduct to Prevent and Address Maltreatment in Sport (UCCMS) where applicable through provincial sport organization membership

9.4 Risk Register

Risk	Impact	Likelihood	Mitigation
Facility unavailable or rates increase sharply	High	Medium	Contract multiple venues; sign multi-season agreements; keep programming portable
Serious participant injury	High	Low–Medium	Certified coaches, first aid on site, EAP, insurance, incident protocol, ratios
Under-enrolment in a program block	Medium	Medium	Minimum-numbers threshold before a block runs; merge or refund; test demand before scaling
Coach turnover or shortage	High	Medium	Deep contractor pool, junior coach pipeline, competitive rates, curriculum so sessions are transferable
Cash flow gap between registration windows	High	Medium	Operating reserve, line of credit, membership pillar for recurring revenue
Safeguarding incident	Severe	Low	Screening, Rule of Two, training, reporting procedure, abuse insurance, zero-tolerance enforcement
Combat sport regulatory breach	Severe	Low	No sanctioned bouts in Phase 1; written confirmation before any competitive combat event
Competitive response from established clubs	Medium	Medium	Partner rather than confront; position as complementary; join PSOs in good standing
Founder capacity across ventures	High	Medium	Hire Operations Manager early; document processes; delegate delivery
Reputation damage from poor delivery	High	Low–Medium	Curriculum standards, coach observation, parent feedback each block, act on complaints quickly
Economic downturn reducing family spending	Medium	Medium	Tiered pricing, payment plans, Jumpstart/KidSport, subsidized spots, keep entry-level pricing accessible

10. Growth Roadmap

Phase	Timeframe	Focus	Milestones
Phase 1 — Foundation	Months 1–6	Incorporate, brand, facilities, first programs	Legal setup complete; website and registration live; 4–6 sports launched; 150+ participants; 8+ coaches contracted
Phase 2 — Expansion	Months 7–18	Add pillars, add sports, first events	S&C and MMA memberships live; chess academy launched; Phase 2 sports added; first 2 tournaments hosted; 400+ participants; first summer camp delivered
Phase 3 — Consolidation	Months 19–36	Depth, quality, dedicated training space	Shared or subleased S&C/MMA space secured; Operations Manager full-time; school division partnership contracted; 900+ participants; 12 events per year
Phase 4 — Scale	Years 3–5	Facility, regional reach, provincial profile	Dedicated multi-sport facility feasibility completed; satellite delivery in one regional community; provincial-level events hosted; 1,400+ participants

11. Key Performance Indicators

Category	Metric	Year 1 target	Review
Participation	Unique participants served	540	Monthly
Participation	Total program registrations	780	Per block
Retention	Block-to-block retention rate	55%	Per block
Retention	Households enrolled in 2+ programs	22%	Quarterly
Financial	Total revenue	$265,000	Monthly
Financial	Operating margin	10%+	Quarterly
Financial	Revenue per participant	$490	Quarterly
Financial	Cost of acquisition per new participant	< $35	Monthly
Delivery	Program fill rate against capacity	75%	Per block
Delivery	Session cancellation rate	< 3%	Monthly
Quality	Parent satisfaction (end-of-block survey)	4.3 / 5	Per block
Quality	Coaches meeting full certification standard	100%	Quarterly
Safety	Reportable incidents per 1,000 participant-hours	Track and minimize	Monthly
Community	Subsidized spaces delivered	60	Annually

Category	Metric	Year 1 target	Review
Events	Events hosted	6	Annually

12. First 90 Days — Action Plan

Days 1–30 — Legal and Structural Foundation

6. Draft and adopt bylaws, including the membership policy items listed in §2.2, and have them reviewed by a lawyer.
7. Seat the first board of directors; elect officers; open the minute book and member register by class.
8. Adopt the conflict-of-interest policy and financial signing authority resolution.
9. Obtain CRA Business Number, GST account and PST vendor's licence; open business bank account and merchant processing.
10. Brief an insurance broker on all planned activity including combat sport and events; obtain written quotes.
11. Trademark search on the NAA name and crest; consider CIPO filing.
12. Finalize brand system documentation (colour, typography, logo usage) for web and print.

Days 31–60 — Infrastructure and People

13. Contact Regina Public Schools, Regina Catholic Schools and City of Regina Recreation regarding facility rental agreements for the coming season.
14. Shortlist and book two to three anchor venues for Phase 1 sports.
15. Select and configure the registration platform; build the program catalogue, waivers and fee schedule.
16. Build and launch the website with program pages, coach profiles, and registration links.
17. Post coaching positions; begin interviews and screening; issue contractor agreements to a founding group of 8–12.
18. Apply for membership with the relevant provincial sport organizations.
19. Order Phase 1 equipment and initial apparel inventory.

Days 61–90 — Launch

20. Publish the full first-season program schedule and open early-bird registration.
21. Launch the Meta and Google campaigns; begin school flyer distribution and community outreach.
22. Host a free community open house and taster day.
23. Complete coach onboarding: curriculum briefing, Safe Sport, emergency action plans, equipment handling.
24. Approach the first sponsorship prospects with the tier package.
25. Confirm minimum enrolment thresholds per program and finalize which blocks proceed.
26. Deliver week one; capture photography and video; begin collecting testimonials.

Appendix A — Sport Launch Priority Matrix

Sport	Local demand	Facility difficulty	Coach availability	Equipment cost	Priority
Soccer / futsal	Very high	Low	High	Low	1
Basketball	Very high	Low	High	Low	1
Volleyball	High	Low	Medium	Low	1
Badminton	High	Low	Medium	Low	1
Athletics	Medium	Medium	Medium	Medium	2
Chess	Medium	Very low	Medium	Very low	1
Strength & conditioning	High	Medium	Medium	High	1
MMA / martial arts	High	Medium	Medium	High	2
Cricket	High	Medium	Medium	Medium	2
Table tennis	Medium	Low	Medium	Medium	2
Ball / floor hockey	Medium	Low	High	Low	2
Pickleball	Medium	Low	Medium	Low	3
Flag football	Medium	Medium	Medium	Low	3
Tennis	Medium	High	Low	Medium	3
Wrestling	Low–Medium	Medium	Low	Medium	3
Ice hockey	Very high	Very high	High	High	4 (partner)
Swimming	High	Very high	Medium	Low	4 (partner)
Gymnastics	Medium	High	Low	Very high	4 (partner)

Appendix B — Pre-Launch Document Checklist

#	Document	Purpose	Status
1	Articles of Incorporation	Legal existence	☐
2	Corporate bylaws	Governance	☐
3	Shareholder or member agreement	Ownership and decision rights	☐
4	Independent contractor coaching agreement	Coach engagement, CRA defensibility	☐

#	Document	Purpose	Status
5	Coach code of conduct	Safe Sport	☐
6	Participant and parent code of conduct	Behaviour standards	☐
7	Waiver, release and assumption of risk	Liability	☐
8	Medical information and consent form	Safety	☐
9	Photo and media consent	Marketing compliance	☐
10	Privacy policy and data retention policy	Privacy compliance	☐
11	Refund and cancellation policy	Consumer clarity	☐
12	Concussion protocol	Safety	☐
13	Emergency action plan (per venue)	Safety	☐
14	Incident report form	Risk management	☐
15	Complaint and discipline procedure	Safe Sport	☐
16	Facility rental agreements	Operations	☐
